

WGANC - INTRODUCTION AND HISTORY

The Women's Golf Association of Northern California (WGANC) has been active for over a century since starting in 1908 with only five member clubs: Menlo, San Francisco, Presidio, Claremont and Del Paso (Sacramento). Today there are over 100 member clubs representing over 11,000 individual members.

The mission of the WGANC is to provide educational, competitive and social opportunities and support and promote women's amateur golf. Their vision is to realize the potential of women's amateur golf in Northern California through programs which enhance their golfing experience from junior through championship opportunities.

We encourage you to learn more about WGANC through visiting their website at www.wganc.com and by reading their "Green Book" published annually.
